REMARKS

The figures of births and deaths shown in this statement for week ending the 2nd July, 1955, relate to 185 towns with an estimated population of 25,824 thousands. The total number of towns is 300 and their population is 38,988 thousands. Thus 62% of the total number of towns representing 66% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 15,679 and 6,896 representing birth and death rates of 31.6 and 14.0 per thousand of population respectively.

(a) States (Part A and Part C):—The data here relate to 162 towns with an estimated population of 22,475 thousands. Information about Ajmer, Assam, Bihar, Madhya Pradesh & West Bengal could not be included. The total number of towns is 252 and their population is 32,572 thousands. Thus 64% of the total number of towns representing 69% of the

total population is covered. The number of births and deaths recorded in these towns were 14,137 and 6,223 representing birth rates and death rates of 32.7 and 14.4 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(b) States (Part B):—The data here relate to 23 towns with an estimated population of 3,349 thousands. The total number of towns is 48 and their population is 6,416 thousands. Thus 48% of the total number of towns representing 42% of the total population is covered. The number of births and deaths recorded in these towns were 15,42 and 673 representing birth and death rates of 23.9 and 10.4 per thousand of population respectively. No town recorded a high death rate of 50 or over per thousand of population.
